Evidence & Verification Report

Western Ghats Restoration - Test

Analysis Period	2025-01-01 to 2025-12-31
Generated	2026-03-01T12:00:00
Package ID	pkg-00000000-0000-0000-0000-000000000001
Growth Status	GROWTH
Confidence Score	85.0 / 100
Overall Status	PASS
Methodology	v1.0.0

1. Executive Summary

This evidence package documents the monitoring and verification results for **Western Ghats Restoration - Test** covering the period **2025-01-01** to **2025-12-31**.

Key Findings

Metric	Value
Growth Classification	GROWTH
Confidence Score	85.0 / 100
Overall Status	PASS
Data Quality Score	92.5 / 100
Data Sources	1
Processing Steps	4
Verification Flags	2
Critical Flags	1

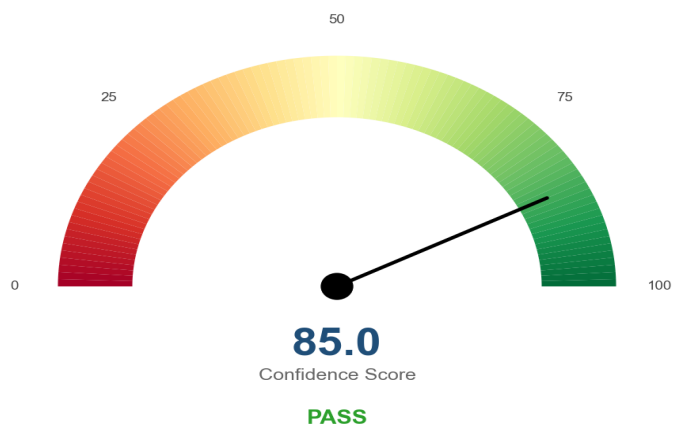

Figure 1: Confidence Score Gauge

Healthy growth detected over 12-month period.

2. Data Sources

Source	Platform	Collection	Resolution	Access Date
Sentinel-2	ESA	COPERNICUS/S2_SR_HARMONIZED	10.0m	2026-02-15

3. Analysis Results

3.1 Extracted Features

Feature	Value	Unit	Uncertainty	Source
ndvi_mean	0.5200	index	0.0300	satellite_data
trend_slope	0.0050	index/day	0.0300	calculation
biomass_estimate	45.2000	t/ha	0.0300	ml_model

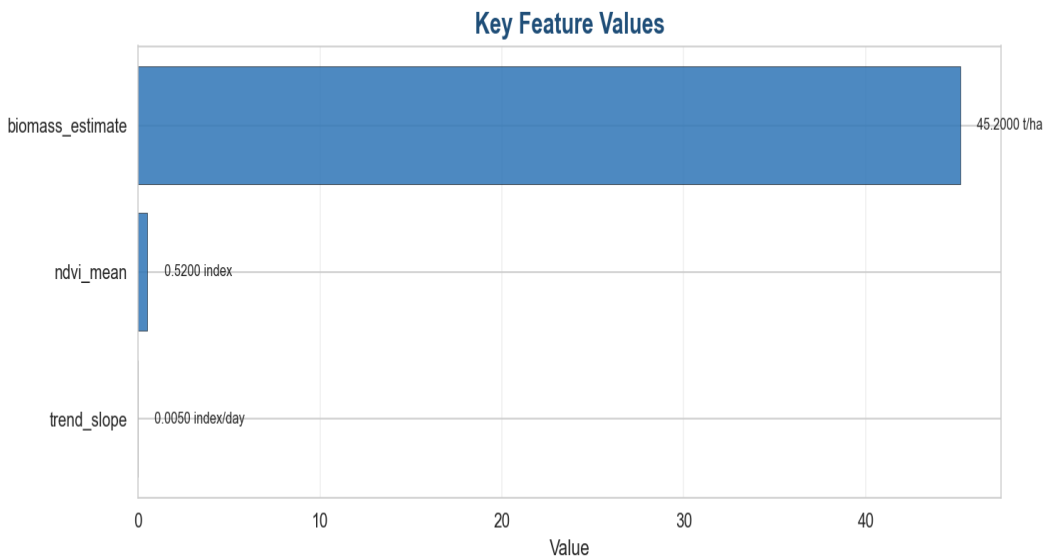

Figure 2: Key Feature Values

3.2 NDVI Time Series

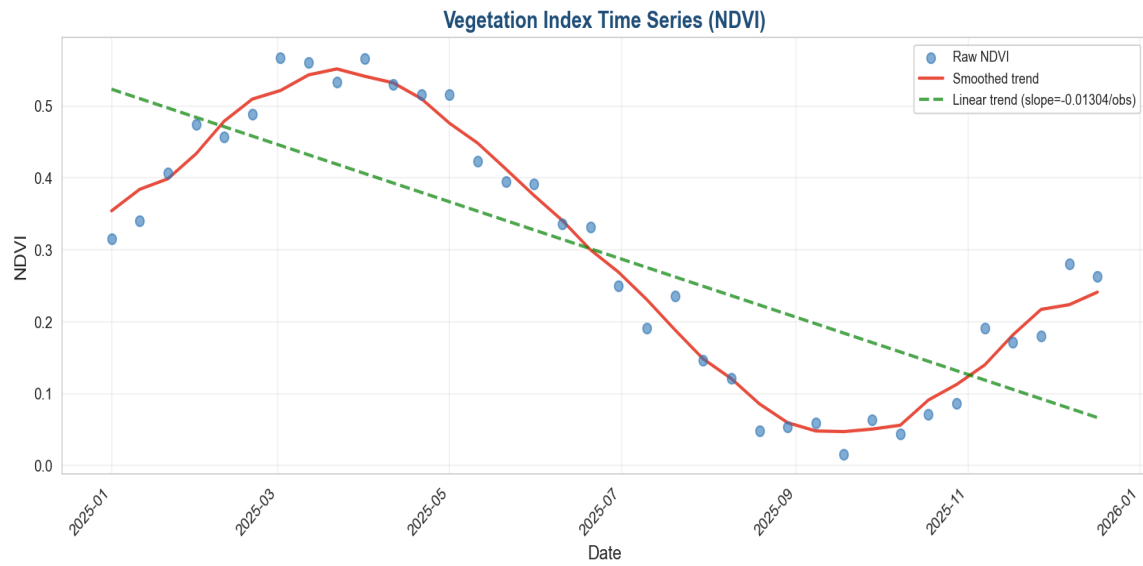

Figure 3: NDVI Time Series with Trend

3.3 Seasonal Pattern

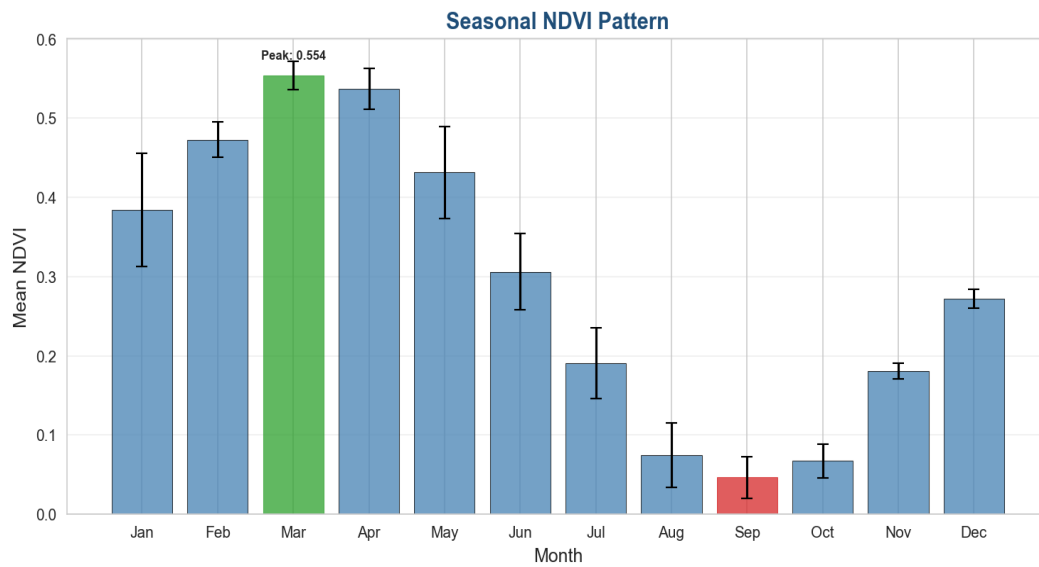

Figure 4: Monthly Seasonal NDVI Pattern

4. Verification Results

3 verification rule(s) evaluated. **2** flag(s) raised, including **1** critical.

Rule ID	Rule Name	Status	Risk Level	Recommendation
R1	Insufficient Observations	PASS	MEDIUM	No action required
R2	Insufficient Observations	FLAG	MEDIUM	No action required
R3	Insufficient Observations	FLAG	CRITICAL	No action required

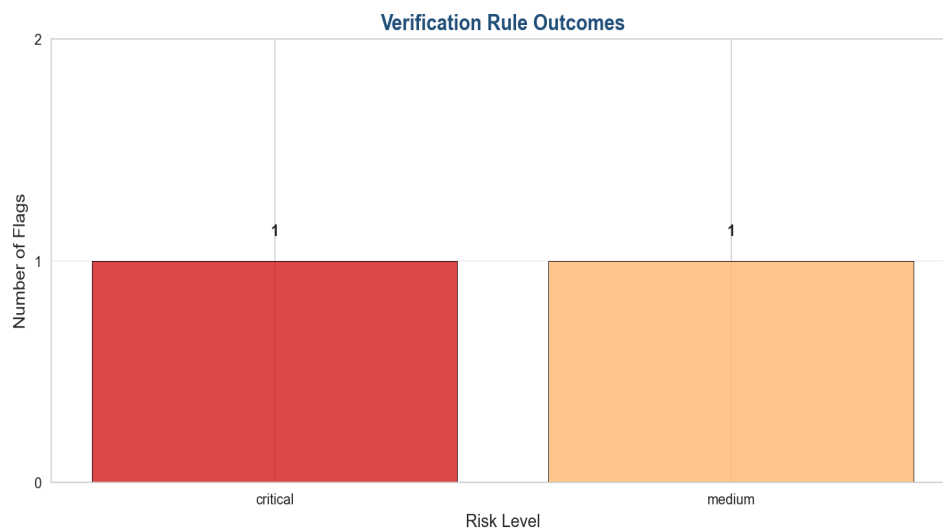

Figure: Verification Flag Distribution

5. Processing Lineage

Complete processing chain for full transparency and reproducibility. Each step is logged with timestamps, parameters, and status.

Step 1: Satellite Data Fetch

Timestamp	2026-03-01T10:00:00
Status	SUCCESS
Duration	350 ms
Script Version	1.0.0
Parameters	cloud_cover_threshold=30.0

Step 2: Feature Extraction

Timestamp	2026-03-01T10:00:00
Status	SUCCESS
Duration	350 ms
Script Version	1.0.0
Parameters	cloud_cover_threshold=30.0

Step 3: MI Scoring

Timestamp	2026-03-01T10:00:00
Status	SUCCESS
Duration	350 ms
Script Version	1.0.0
Parameters	cloud_cover_threshold=30.0

Step 4: Verification

Timestamp	2026-03-01T10:00:00
Status	SUCCESS
Duration	350 ms
Script Version	1.0.0
Parameters	cloud_cover_threshold=30.0

Appendix: Package Metadata

Field	Value
Package ID	pkg-00000000-0000-0000-0000-000000000001
Project ID	proj-00000000-0000-0000-0000-000000000001
Analyst	GeoMRV Automated Pipeline
Methodology Version	1.0.0
Data Quality Score	92.5
Checksum (SHA-256)	Not sealed
Overall Status	PASS
Generated Date	2026-03-01T12:00:00

This report was generated automatically by the GeoMRV pipeline. All data, processing steps, and verification results are fully traceable. The SHA-256 checksum can be used to verify package integrity.
